SKILLS SUMMARY

- **Languages**: C, C++, Java, Python, JavaScript
- **Web Technologies**: HTML, CSS
- **Python Libraries**: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
- **Tools**: Excel, Power BI, Git, GitHub, Tableau
- **Databases**: MySQL, MongoDB
- **Soft Skills**: Effective Communication, Accountability, Adaptability, Time Management

PROJECTS

Amazon Sales Data Analysis | GITHUB — Dec 2025 – Jan 2026

- Analysed an Amazon sales dataset (~120K records) using SQL to extract insights on revenue trends, top product categories, and geographic sales performance.
- Developed and executed 15+ analytical queries for aggregation, grouping, and business analysis to evaluate order status, fulfilment methods, and B2B sales patterns.
- **Technology Stack:** SQL, MySQL, MySQL Workbench, Data Analysis, Aggregations

MakeMyTrip Customer & Booking Trends Dashboard | GITHUB — Feb 2025 – Apr 2025

- Developed an Excel analytics dashboard to analyse travel trends including popular destinations, hotel preferences, discount usage, reservation outcomes, and fare distribution.
- Cleaned and structured raw booking data, built Pivot Tables, KPIs, and interactive charts with slicers to highlight demand hotspots and support data-driven travel insights.
- **Technology Stack:** Excel, Pivot Tables, Data Cleaning, Data Visualization, KPI Dashboards

Public Opinion Tracker | GITHUB — Feb 2025 – Apr 2025

- Built a full-stack AI chatbot platform providing real-time conversational responses through a responsive web interface and scalable backend services.
- Implemented AI model integration, API communication, and real-time messaging, delivering a production-ready chatbot with optimized performance and smooth user interaction.
- **Technology Stack:** Python, JavaScript, REST APIs, AI/LLM Integration, Web Development

TRAINING

C++ with Data Structures and Algorithms | CSE PATHSHALA | Certificate — Jun 2025 – Jul 2025

- Completed an intensive training program focused on core Data Structures and Algorithms concepts and object-oriented principles using C++
- Practiced implementing data structures like arrays, linked lists, stacks, queues, and trees through real-world problems and gained hands-on experience in algorithmic problem-solving and time-complexity optimization
- Strengthened programming logic and OOPS concepts such as inheritance, polymorphism, abstraction, and encapsulation

CERTIFICATES

- Build Generative AI Apps and Solutions with No-Code Tools | *Infosys Springboard* | Certificate — Aug 2025
- Master Generative AI and Generative AI Tools | *Infosys Springboard* | Certificate — Aug 2025
- Cloud Computing | *NPTEL* | Certificate — May 2025
- The Bits and bytes in networking | *Google* | Certificate — Sep 2024

ACHIEVEMENTS

HackWithVertos Hackathon | *Echo LPU* — Feb 2024

- Cleared two competitive rounds and secured a Top-12 position among campus teams by developing a functional Hospital Management System prototype

EDUCATION

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering — *Since* Aug 2023
  CGPA: 7.18
- **Narayana Junior College** — Bhimavaram, Andhra Pradesh
  Intermediate - MPC — Jun 2021 – Mar 2023
  Percentage: 83.8%
- **SJN ZPHS** — Pedanindrakolanu, Andhra Pradesh
  Secondary School Education — Jun 2020 – Apr 2021
  Percentage: 70%
